

XSTAMPER REINKING

We strongly recommend using only Xstamper Refill Ink to re-ink your Xstamper pre-inked rubber stamp. It has been specifically formulated to flow cleanly through the micropores of the Xstamper's laser-engraved rubber impression die. Using ink other than Xstamper Refill Ink can clog these micropores and voids the Xstamper warranty. Please follow the directions below for your respective Xstamper mount.

After re-inking, please allow stamp to sit up to 24 hours to reach maximum saturation.

Remove the handle and place 2-4 drops of ink in the openings on either side of the spring as shown.

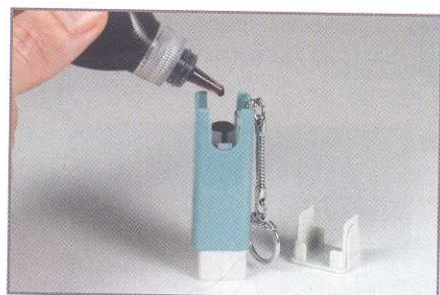

Slide the impression cartridge out of the handle and place 2-3 drops of ink in the 4 openings as shown.

Remove the handle and place 2-4 drops of ink in the opening in the center of the mount.

Slide the impression cartridge out of the handle and place 2-3 drops of ink in the opening as shown.

Remove the white cap on top and place 2-4 drops of ink in the opening in the center of the mount.

Slide the impression cartridge out of the handle and place 2-3 drops of ink in the opening as shown.

Remove the Impression Frame™ and use an ink cartridge to put 2-3 drops of ink into the inking hole. Put 2-3 drops into the frame as well.

Simply put a few drops of ink in the XpeDater base and a few in the travel cap.

Simply put a few drops of the corresponding color ink into the the stamp base.
